

# CURRICULUM VITAE

(Updated September 2022)

## Juan Carlos Ferreri

- Member, National Academy of Sciences of Buenos Aires (ANCBA), 2009–, Argentina
- Secretary (2011-2015), Treasurer (2015-2017), President (2017–2021) ANCBA
- Senior 2004 Award to Research, Professional and Teaching Achievements in Argentina, Argentinean Association for Computational Mechanics (AMCA), Argentina
- Past Member, CIC CONICET, Argentina
- Listed in the Annual Editions of Who's Who in the World, 2012–

**Date of birth** 11 February 1944

**Married, three sons**

**Nationality** Argentine

**Academic Qualifications:** 1967, Aeronautical Engineer, Univ. de La Plata (UNLP), Argentina

**Job Status:** Retired

**e-mail:** [jcferreri@gmail.com](mailto:jcferreri@gmail.com) [jcferreri@ciencias.org.ar](mailto:jcferreri@ciencias.org.ar)

## Career

1964-67 Student Teaching Assistant, Materials Testing, UNLP.

1968-74 Graduate Teaching Assistant and Assistant Lecturer, Fluid Mechanics, Department of Aeronautical Eng., UNLP

1974-78 Deputy Head, Department of Thermodynamics, National Institute of Industrial Technology (INTI), Argentina

1976-78 Assistant (Adjunto) Researcher, CONICET

1978-12 Senior (Independiente) Researcher, CONICET, retired 2012

1979-79 Assistant Professor, Univ. of Buenos Aires (UBA)

1978-80 Free Lance Consultant Engineer in Fluid Mechanics

1980-80 Professor, Hydraulic Eng. Department, UBA

1984-94 Researcher, National Atomic Energy Commission (CNEA), Radiological Protection and Safety Branch, Argentina

1984-85 Professor, Chemical Eng. Department, UBA

1987-87 Professor, Hydraulic Eng. Department, UNLP

1995-96 Head, Modeling Group, Scientific Support Branch, ENREN, Argentina

1996-01 Project Leader, Scientific Support Branch, NRA, Argentina

2001-03 Senior Staff Member, Nuclear and Radiological Safety Branch, NRA, Argentina

2004-10 Senior Staff Member, Scientific Support Branch, NRA, Argentina

2004-10 Head, Scientific and Technical Support Branch, NRA, Argentina, since April 4<sup>th</sup>, 2004 to August 1<sup>st</sup>, 2010

2005-10 Head, Environmental, Calibration and Biological Laboratories Quality Accreditation Project under ISO-17025/2005, NRA, up to August 1<sup>st</sup>, 2010

Accreditations obtained: Radiation Measurements Labs.: Gamma spectrometry Laboratory; U in Water by Direct Fluorimetry and Kinetic Phosphorimetry Analysis (KPA), H<sup>3</sup> in water; Radiation Measurement and Instruments Calibration Laboratory and Cytogenetic Assays Laboratory

2009- Member, National Academy of Sciences of Buenos Aires (ANCBA), Argentina

2010-11 Senior Staff Member, NRA, Argentina, since August 1<sup>st</sup>, retired December 2011

2011-17 Advisor Emeritus, NRA, Argentina, December 1<sup>st</sup>, 2011-2017

2011-15 Academic Secretary, ANCBA

2012-13 Part-time Researcher, Universidad Argentina de la Empresa, INTEC, Argentina

2014-17 Scientific Advisor, ESSS Argentina (for ANSYS Fluid Dynamics codes)

2015-17 Treasurer, ANCBA

2017-21 President, ANCBA

## **Current Research Interests and Experience**

- R & D in Numerical Methods Applications in Fluid Mechanics and Heat Transfer
- Application of CFD codes in Engineering
- Reflections and articles on science and society

## **Publications**

See attached list

## **Professional Membership**

Past Member and President, Argentine Committee for Heat and Mass Transfer

Past Member, Argentine Society for Radiation Protection

Past Member, New York Academy of Sciences

## **University (\*) and Post Graduate (#) Courses Taught**

- Fluid Mechanics (\*), UNLP, 1968-1974.
- Finite-difference Techniques (#), C.I.O, CONICET, 1978
- Computational Techniques for the Numerical Solution of Partial Differential Equations (#), UBA, 1979
- Computational Techniques in Fluid Mechanics, Finite-Differences (#), in collaboration, UBA, 1980
- Computational Fluid Dynamics - Finite-Differences (#), Nuclear Engineering, Inst. Balseiro, Argentina, 1983
- Finite-Difference Techniques for the Numerical Solution of Governing Equations (\*), UBA, 1984
- Finite-Difference Techniques for the Numerical Solution of Partial-Differential Equations - Numerical Modeling (#), CISM, RILEM, Nat. Inst. Industrial Tech., 1986
- Finite-Differences module in Computational Mechanics (\*), Nuclear Engineering, Inst. Balseiro, 1987
- An Introduction to Computational Fluid Dynamics (\*), UNLP, 1987
- A module on Numerical Methods I (\*), International School on Physics and Mechanics of Fluids, Centro Internacional de Física and Facultad Ciencias Exactas (UNCPBA), Argentina, 1989.
- A module on Numerical Methods in Heat and Mass Transfer: Finite-Difference Methods (#), ECAMAT'92, CONICET-FCE UNCPBA-CNEA, Tandil, 1992.
- Invited Lecturer, Course on Natural Circulation Phenomena and Modeling in Water-Cooled Reactors and Reliability of Passive Systems (#),
  - IAEA-ICTP, Trieste, Italy, June 25-29, **2007**;
  - IAEA-Idaho National Laboratory, Idaho Falls, USA, May 19-23, **2008**
  - IAEA-ICTP, Trieste, Italy, June 23-27, **2008**
  - IAEA-UNIPI-GRNSPG, Italy, Pisa, June 22-26, **2009**
  - IAEA-ICTP, Trieste, Italy, May 16-21, **2010**
  - IAEA-Harbin Univ. of Engineering, People's Republic of China, July 11-15, **2011**
  - NINE/NRGSPG Course on Natural Circulation in Advanced Water-cooled Nuclear Reactors, CNPE Co. Ltd, Beijing, People's Republic of China, 27 to 31 August **2012**
- Invited Lecturer, PREFALC (#) [Univ. Rennes 1-2, Univ. Nac. Trujillo, Perú, UBA, Argentina], International Magister in South American Archaeology (modelization, experimentation and analytical techniques), June 22-27, Trujillo Perú, **2015**; November 14-18, Rennes, **2015** and July 31-August 6, Trujillo, Perú, **2017**

## Committees and Duties

### At the National Academy of Sciences of Buenos Aires

- Fellow Member, National Academy of Sciences of Buenos Aires, July 27, formally incorporated in November 11<sup>th</sup>, **2009-to date**
- Member, Award Committee, jointly with Sergio Idelsohn and Pablo Jakovkis, National Academy of Sciences of Buenos Aires “*Stimulus*” Award on “Novel Methods for the Simulation of Fluid Flows”, **2010**
- Member, Award Committee, jointly with Acad. Ing. Luis De Vedia and Dr. G. Sanchez Sarmiento, National Academy of Sciences of Buenos Aires Medal “*Ing. Pedro Vicién Award for Outstanding Achievements in Mechanical Engineering in Argentina*”, **2010**
- Acting Academic Secretary and Member of Executive Board, ANCBA, April 1<sup>st</sup>, **2011-2015**
- Academic Director, jointly with Dr. Mauricio Chocrón, Section for Studies on Heat and Mass Transfer (ECAMAT from its Spanish acronym), Institute for Studies in Science and Technology, ANCBA, July **2014-to date**
- Member, Award Committee, Section Engineering, Architecture and Arts, National Academy of Sciences of Buenos Aires, category “Consagración”, **2014**
- Acting Treasurer and Member of Executive Board, ANCBA, March 16<sup>th</sup>, **2015-2017**
- Member, Award Committee, jointly with Acad. Ing. Luis De Vedia and Dr. Mario J. Solari, National Academy of Sciences of Buenos Aires Medal “*Ing. Pedro Vicién Award for Outstanding Achievements in Mechanical Engineering in Argentina*”, **2016**
- President of the Board, ANCBA, March 27<sup>th</sup>, **2017-to October 18<sup>th</sup>, 2021**

### At the University

- Member, Advisory Committee for Nuclear Engineering Professors and Teaching Assistants Promotion, Instituto Balseiro, Univ. de Cuyo and CNEA, Argentina, May **1989**, July **1992**, July **1995** and June **2003** for Academic Achievements Evaluation of Nuclear Engineering Professors
- Member, Qualification and Promotion Staff, Professors Chairs, Instituto Balseiro, Univ. de Cuyo and CNEA, Argentina, **2004, 2008, 2017**
- Member, Dissertation Committee for Ph.D. and MSc Theses in Nuclear and Chemical Engineering, Physics and Meteorology, concerning Fluid Dynamics, Numerical Modeling and Heat and Mass Transfer, **1984 - to date.**  
**See attached list**
- Member, Examination Staff, Full Professor and Associate Professors Chairs in Aerodynamics and Fluid Mechanics, Engineering College, Aeronautical Engineering Department, UNLP, **1998, 2000, 2003, 2005**
- External Member, Dissertation Committee on Nuclear Engineering Graduation, University of Pisa, July **2003**
- Member, Advisory Staff for Peruih’s Doctorate Fellowships Contest, UBA, College of Engineering, December **2003**
- Member, Examination Staff, Professors Chairs on Modeling, Mechanics and Thermal-hydraulics Academic Areas, Universidad Argentina de la Empresa (UADE), Argentina, December 2004, December **2005.**
- Peer reviewer, MSc. Curricula on Applied Computing in Science and Engineering, Univ. Del Litoral, Argentina, **2006**
- Member, Advisory Committee on Ph.D. Theses, UBA, College of Engineering, **2006-2016**
- Member, Advisory Committee, Categorization of Researchers in Science and Technology, Universidad Argentina de la Empresa (UADE), Argentina, September **2010**, April **2012**
- Member, Advisory Committee, R&D Projects Evaluation, Universidad Argentina de la Empresa (UADE), Argentina, April **2011.**

- Member, Advisory Committee, designation of Director of “Centro Tecnológico Aeroespacial”, Facultad de Ingeniería, UNLP, **October 2016**.
- Member, Coordination and Organization Committee, Academic and Research Area, Universidad Nacional Guillermo Brown (UNaB), Argentina, **October 2017-2019**
- Member, Evaluation Committee, Call for Research Projects SIIP 2019, UNCUYO, 13-15 December 2018

### **At the Nuclear Industry R&D and Regulation Institutions**

- Member, IAEA Specialist Meeting on Experimental Aspects and Numerical Modeling of Small LOCAs, Budapest, Hungary, **1983**
- Member, IAEA Technical Review Committee on Siting, Vienna, Austria, June **1985**
- President, Advisory Committee on Graduates and Technicians Grading, Safety and Radiological Protection Branch, National Atomic Energy Commission, Argentina, **1985-1986**
- Member, Joint Advisory Committee on Graduates, Technicians and Administrative Personnel Grading, Radiological Protection and Safety Branch, National Atomic Energy Commission, Argentina, **1985-1986**
- Member, Advisory Committee on Publication Policy, National Atomic Energy Commission, Argentina, **1991**
- Member, Publications Committee, National Atomic Energy Commission, Argentina, **1992**
- Technical Counterpart, National Atomic Energy Commission - IAEA Agreement ARG/9/006 on Probabilistic Safety Assessment of Nuclear Power Plants, Phase II, Severe Accidents, **1991-1994** (US\$ 15,000 in 1991-92, US\$ 50,000 in 1992-93 and US\$ 75,000 in 1994, plus training fellowships and expert visits)

Has been the Argentine counterpart of the following IAEA International experts:

- On Thermal-hydraulics: Dr. Wolfgang Wulff, Brookhaven Nat. Lab., USA (twice)
- On Thermal-hydraulics: Prof. Richard Lahey, Rensselaer Polytechnic Inst., USA
- On Severe Accidents: Dr. Richard Gonzalez, Inst. Prot. Sec. Nuc., France
- On Severe Accidents: Prof. Francesco Oriolo, Univ. of Pisa, Italy
- Principal Researcher, CNEA/ARN - IAEA, Agreement 7285/CF on the Safety of Thermal Behavior of Uranium Hexafluoride (UF<sub>6</sub>) Transport Packages in Fires, December **1992-1997**
- Member, Publications Committee, National Board of Nuclear Regulation, **1995-1998**
- Designated participant, IAEA Specialists Meeting on "User qualification Effects on and User Qualification for the Safety Analysis of Nuclear Power Plants, Vienna, Austria, August 30<sup>th</sup> to September 3<sup>rd</sup>, **1998**
- Technical Counterpart, Thermal-Hydraulics Code Applications and Maintenance Program (CAMP), in the framework of the US Nuclear Regulatory Commission - National Board of Nuclear Regulation Agreement and continuing with Nuclear Regulatory Authority, **1995-2002, June 2006-March 2009**

Have attended the following CAMP Meetings as Designated Representative:

- o Helsinki, Finland, May **1995**
- o Santa Fe, New Mexico, USA, October **1996**
- o Budapest, Hungary, May **1997**
- o Washington, USA, October **1997**
- o Washington, USA, October **1998**
- o Bariloche, Argentina, (Member, Organizing Committee), April 27-30, **1999**
- o Palermo, Italy, April **2000**
- o Annapolis, USA, October **2000**
- o Prague, Czech Republic, April **2001**
- o Bratislava, Slovak Republic, May **2002**
- o Stockholm, Sweden, **June 2010**
- o Bariloche, Argentina, (Member, Organizing Committee), April 27-29, **2011**
- o Philadelphia, USA, November **2011**
- Has been the Nuclear Regulatory Authority counterpart of the following international experts: Prof. Francesco D'Auria, Pisa University, Italy, **2000**

- Dr. Walter Ambrosini, Pisa University, Italy, **1998**
- President, Advisory Committee on Personnel Discipline, National Board of Nuclear Regulation, 1996-1998
  - Designated Technical Coordinator: agreement for the exchange of technical information and co-operation in Nuclear Safety and Radiation Protection matters between the National Agency for the Protection of the Environment (ANPA) of Italy and the Nuclear Regulatory Authority (ARN) of Argentina, **2000-2004**
  - Designated Technical Coordinator: agreement for Research and Development in Radiological and Nuclear Safety in the Regulatory Context, The University of Pisa, the Nuclear Regulatory Authority (NRA) of Argentina and the Universidad del Salvador, through the International Institute of Studies on the Government and Society (IIEFGS), **2001**
  - Coordinator, jointly with Prof. F. D'Auria, of Energy Department, (IIEFGS), **2002-2006**
  - Member of Scientific Committee, Lecturer and Organizer, Seminar and training on Scaling, UNcertainty and **3D COuPled** code calculations in Nuclear Technology, UADE, Buenos Aires, October 2-13, **2006**
  - Head, Scientific and Technical Support Branch, NRA, Argentina, **April 2004-September 2010**

#### **At Scientific Journals**

- Reviewer, Applied Mechanics Reviews, ASME, **1972-83**
- Member, Pub. Advisory Committee, Latin American J. of Heat and Mass Transfer, **1977-85**
- Reviewer, Latin American Journal of Heat and Mass Transfer, **1977-87**
- Reviewer, Latin American Journal of Chemical Eng. and Applied Chemistry, **1977-84**
- Reviewer, International Journal of Heat and Technology, **2001**
- Member of the Editorial Committee and Reviewer, Latin American Applied Research, **1988-1998**, reviewer **1998-2012**
- Guest Editor jointly with F. D'Auria, Int. J. Heat and Technology, Special Issue dedicated to Fluidos-2001, **21, 2003**
- Associate Editor, Science and Technology of Nuclear Installations, Dec. **2006-2016**
- Reviewer, Nuclear Engineering and Design, **2008-to date**
- Reviewer, Int. J. Numerical Methods in Engineering, **2009**
- Reviewer, Mathematics and Computers in Simulation, **2010**
- Lead Guest Editor, Science and Technology of Nuclear Installations, Special Issue on "Nuclear Activities in Argentina – 2010", August 1<sup>st</sup>, **2010**
- Reviewer, Progress in Nuclear Energy, **2013-2018**
- Reviewer, Annals of Nuclear Energy, **2014-2015**
- Reviewer, Athens Journal of Technology & Engineering, ATINER, **2016-**

#### **At Scientific and Technical Institutions**

- Member, Executive Staff, Argentine Committee for Heat and Mass Transfer, CONICET, Argentina, **1977-1985**
- Member, Advisory Committee on Publication Policy, CONICET, Argentina, **1985**
- President, Executive Staff, Argentine Committee for Heat and Mass Transfer, CONICET, Argentina, Oct. **1988-1998**
- The organizer of Seminars on Computational Methods in Heat and Mass Transfer for the Argentine Committee on Heat and Mass Transfer, **1977-1996**
- Member, Advisory Committee on Physical Sciences, Comisión de Investigaciones Científicas, Provincia de Buenos Aires, Argentina, May **1989-1999**
- External Member, Project and Personnel Evaluation Staff, ANPCyT (National Agency for the Promotion of Science and Technology) and National Research Council (CONICET), **1998-2011**. *Ibidem* for UBA, Engineering College, **2002-2003**
- Has supervised and evaluated Ph.D. Students and Scientific and Technical Personnel in various Institutions and participated in numerous Examinations Committees for Ph.D. and MSc  
**See attached list**

- Consultant Peer to National Commission for University Evaluation and Accreditation (CONEAU, Engineering Degrees, in charge of Mechanical Engineering, **2002 and 2003**)
- Member and Alternate Coordinator, Advisory Committee on Civil, Mechanical, Electrical and Related Engineering Sciences, CONICET, Argentina, February **2005**-December **2006**.
- Member, Evaluation Committee, STEM Exhibition Fair, Fundación Ciencia Joven, Nov. 5, **2018**
- Member, Consultant Peer, PICT 2018 – FONCyT, ANCyT, **2018**

#### **At Professional Associations**

- Member, Executive Staff, Society for Computational Methods in Engineering, Porto Alegre, Brazil, **1979-1981**
- Member, Executive Committee, Argentine Society for Computational Mechanics, Argentina, **1985-1986**
- Member, Advisory Committee on Meetings Organization, AMCA, Argentina, **1995-2003**

#### **At Scientific Meetings**

- Member, Organizing Committee, Latin American Symposium on Heat and Mass Transfer, La Plata, Argentina, **1982**
- Member, Organizing Committee, International School on Physics and Mechanics of Fluids, Centro Internacional de Física and Facultad Ciencias Exactas (UNCPBA), Argentina, 1989
- Organizer, jointly with Dr. R. Gratton, First Postgraduate School in Heat and Mass Transfer, CONICET, Facultad de Ciencias Exactas (UNCPBA) and National Atomic Energy Commission, Tandil, Argentina, 3-12 Sept. **1992**
- Member of the Scientific Committee, International Conference on: "New Trends in Nuclear Systems Thermal-hydraulics", Pisa, Italy, **1994**
- Member, Organizing Committee, Fourth World Conference on Computational Mechanics, Buenos Aires, Argentina, June 29-July 2, **1998**
- Member, Scientific Committee of Eurotherm Seminar No 63, Genoa, Italy, Sept. 6-8, **1999**
- Member, Program Committee, International Conference on Nuclear Energy in Central Europe 2000, Bled, Slovenia, September 11-14, **2000**
- Member of Organizing Committee/Scientific Committee, Fluidos-2001 - VII International Seminar on Recent Advances in Fluid Mechanics, Physics of Fluids and Associated Complex Systems, held in Buenos Aires, 17-19 October **2001**; has been a member of the Honorary/Scientific Committee of all the Meetings **since 1989**.
- Member of Organizing Committee, First South-American Congress on Computational Mechanics, MECOM-2002, October **2002**, Santa Fe, Argentina
- Honorary President, jointly with Sergio Idelsohn, MECOM 2005, VIII Argentinean Congress on Computational Mechanics, November 16-18, **2005**, Buenos Aires, Argentina
- Member, Scientific Committee, INMAT-2008, FI-UBA, Buenos Aires, Argentina, **2008**
- Member, Scientific Committee, ENS TOPSAFE, Dubrovnik, Croatia, October 1-3, **2008**
- Member, Technical Program Committee, NURETH 15, Pisa, Italy, May **2013**
- Students Session Chair/Co-Chair, sessions SS-S1.5; SS-S3.4 (2); SS-S1 (1, 2, 5); SS-S4 (2); SS-S5, NURETH 15, Pisa, Italy, May **2013**
- Students Awards Committee Member, NURETH 15, Pisa, Italy, May **2013**
- Member, Honorary Committee, FLUIDOS 2014 - XIII Recent Advances in Physics of Fluids and its Applications, Tandil, Argentina, 5-7 November **2014 and continuing up to 2021**
- Chairman, MS 8.5 CFD applications in Nuclear Engineering and Technology, 1<sup>st</sup> PANACM, Buenos Aires, 27-29 April **2015**
- Member, Steering Committee, Best Estimate Plus Uncertainty International Conference (BEPU), May 13-19, Lucca, Italy, **2018**

## Honors

- Nominated, "Award to Excellence", Rotary Club, **1992 and 1993**
- Faculty Member, Institute for Nuclear Studies (IdEN), Ezeiza Atomic Centre, National Atomic Energy Commission, Argentina, **1996-2004**
- Member, Research and Development Institute, National Academy of Sciences of Buenos Aires; Subjects: Nuclear Safety, Fluid Dynamics and Numerical Methods, Argentina, August 4, **2003-**
- Senior 2004 Award to Research, Professional and Teaching Achievements in Argentina, Argentinean Association for Computational Mechanics (AMCA), received at XIV ENIEF, Congress on Numerical Methods and their Applications, Bariloche, Argentina, November 8-11, **2004**
- Member, Award Committee, AMCA, **2006**
- Selected and listed, 30th Pearl Anniversary Edition of Who's Who in the World, **2012** and continuing

## Seminars, Conferences and Visits

- Tens of Invited Conferences (**IC**)/Seminars (**IS**) on Nuclear Engineering, Computational Fluid Dynamics and Heat Transfer in Argentina and abroad, among them:
  - I. The Study of Human Behavior in Relation to Fire in Archaeology: New data and Methodologies for Understanding Prehistoric Fire Structures, **IC** (presented by R.J. March), XIII U.I.S.P.P. Congress, The Lower and Middle Paleolithic, Sept. 8-14, **1996**, Forli, Italy
  - II. On the numerics of thermal-hydraulic system codes: testing their inherent properties, **IC**, Fourth World Conference on Computational Mechanics, Buenos Aires, Argentina, June 29-July 2, **1998**
  - III. Single-phase natural circulation in simple circuits -reflections on its numerical simulation, **IC**, Eurotherm Seminar No 63, Genoa, Italy, Sept. 6-8, **1999**
  - IV. On the Computation of the Stability Margins of 1D, Single-Phase, Natural Circulation Flows, **IC**, First South American Congress on Computational Mechanics, MECOM-2002, October **2002**, Santa Fe, Argentina
  - V. Searching in Time: On the Inference of the Minimum Time of Burning in Archaeological Hearths, Seminars to University of Rennes and Pincevent Archaeological Site, July **2003**
  - VI. On the Construction of Natural Circulation Maps for the CNA-I PHWR NPP, **IS**, Seminar to University of Pisa, DIMNP, July **2003**
  - VII. Computational Methods and Engineering Judgment in Thermal Convection, **IC**, Research and Development Institute, National Academy of Sciences of Buenos Aires, August 26, **2003**
  - VIII. On Natural Circulation in the CNA-I with Loss of Mass Inventory, **IC**, VII Congreso Nacional de Protección Radiológica y Seguridad Nuclear, Buenos Aires, Argentina, October 31, **2003**
  - IX. Natural circulation tests in PSB: Analysis of Experimental Data and the Scaling Issue, TACIS 30303 Working Group Meeting, **IS**, Pisa, Italy, March 29-31, **2004**
  - X. Natural circulation tests in PSB: Preliminary simulation results of the NC-1 Test 2 Natural Circulation experiment using RELAP5/Mod3.3, **IS**, OECD Meeting, Pisa, Italy, April 1-2, **2004**
  - XI. The ubiquity of Ludwig Prandtl, **IC**, Research and Development Institute, National Academia Nacional de Ciencias de Buenos Aires (ANCBA), October 26, **2006**, **published 2008** (in Spanish), by ANCBA, as "Boundary Layer 100 years after Ludwig Prandtl", **92**, pp. 11-27, ISBN-13: 978-987-537-079-1,
  - XII. Computational Fluid Dynamic Fundamentals, International Seminar and training on Scaling, **UN**certainty and **3D COuP**led code calculations in Nuclear Technology (**SUNCOP**), **IC**, UADE, Buenos Aires, October 2-13, **2006**
  - XIII. Computational Fluid Dynamics Trends in Nuclear Safety, **IS**, Fluidos 2006, Mendoza, November 2-4, **2006**
  - XIV. Radiation and Regulation (of ionizing radiation of nuclear origin), **IC**, Research and Development Institute, Academia Nacional de Ciencias de Buenos Aires, December 5<sup>th</sup>, **2007**
  - XV. CFD Techniques in Natural Circulation: reflections on their use, **IC**, Fluidos-2008, Santa Fe, November 19-21, **2008**
  - XVI. Migration of radionuclides in fractured, porous media, **IS**, INRIA, France, October 13<sup>th</sup>, **2009**
  - XVII. Computation of Unstable Flows using System Codes, **IC**, Forum of Sys-TH-Codes in Nuclear Reactors Thermal-Hydraulics (FONESYS), GRNSPG, Univ. of Pisa, May 13-14, **2010**

- XXVIII. Risk Perception, Communication at Plenary Session, ANCBA, August 31<sup>st</sup>, **2010**
- XIX. [04a] Dealing with the ill-posedness problem: basic aspects; and [07a] Computation of Unstable Flow Problems using Thermal-Hydraulic System Codes, **IS**, in Seminar on “Advanced Modeling and Numerical Strategies for Two-Phase Flow in Nuclear Systems”, GRNSPG, Univ. of Pisa, 5-7 July **2011**
- XX. Natural Circulation Characterization of the CNA-II PHWR based on flow maps using RELAP5/MOD3.3P4 (**IS**), A.I. Lazarte and J.C. Ferreri, presented by JCF, Fall-CAMP-2011 Meeting, Philadelphia, USA, November 7-9, **2011**
- XXI. On two parallel channel systems and RELAP5 simulations (**IS**), A.I. Lazarte and J.C. Ferreri, Presented by JCF, GRNSPG, Univ. of Pisa, June 19<sup>th</sup>, **2012**
- XXII. Current licensing activities in the ARN using system codes (**IS**), A.I. Lazarte and J.C. Ferreri, Presented by JCF, Spring 2013 CAMP Meeting, Pisa, Italy, May 8-10, **2013**
- XXIII. Criteria for CFD applications in Nuclear Engineering (**IC**), 2014 ESSS Conference & ANSYS Users Meeting, Buenos Aires, May 14, **2014**
- XXIV. CAMAT: history, legacy and heirs (**IS**), 1<sup>st</sup> Seminar of ECAMAT, ANCBA, August 27, **2014**
- XXV. On the role of CFD in the licensing of nuclear installations (**IC**), XXI ENIEF, San Carlos de Bariloche, September 23-26, **2014**, see DOI: 10.13140/RG.2.1.4957.8725
- XXVI. IAEA & UF6 & FEM & paper & ...: reminiscences of Fernando’s stay at the CAE (**IC**), Special Session to honor Fernando Basombrío, XXI ENIEF, San Carlos de Bariloche, September 23-26, **2014**
- XXVII. On the use of advanced computational techniques and the regulatory restrictions (**IC**), Communication at Plenary Session, ANCBA, March 30<sup>th</sup>, **2015**, see DOI: 10.13140/RG.2.1.4957.8725
- XXVIII. Venturing in an unpredictable context (**IC**), Inter-Academies Meeting, Buenos Aires, Argentina, October 31, **2017**
- XXIX. The role of National Academies on Communities Development (**IC**), Panel and Round Table, Government of Tucumán, August 23, **2018**
- XXX. Sobre el uso de técnicas computacionales avanzadas y las restricciones regulatorias (**IC**), UTN-Facultad Regional Delta, August 29, **2019**
- Hosted by Instituto Balseiro, Argentina: Summer stays, **1985, 1987 and 1993**.
  - Granted by the IAEA: Università degli Studi di Pisa, Dipartimento Construzione Meccaniche e Nucleare, PISA, Italy, October/December **1994**.
  - Hosted by CNRS, France, Laboratoire de Ethnologie Prehistorique, Paris, December **1994**.
  - Hosted by the University of Calgary, Dep. of Mech. Engineering: October **1996**.
  - Hosted by DIMNP, University of Pisa, Visiting Researcher, **1995-2003**, yearly.
  - Hosted by University of Rennes 1, 2 and Nantes, France, Invited Professor, June-July **2003**
  - Hosted by DIMNP, University of Pisa, Visiting researcher, TACIS Project 30303, April-March/**2004**, October-November/**2005**, June/**2007** and June-July/**2008**.
  - Hosted by DIMNP, University of Pisa, Visiting researcher, GRNSPG, June **2009**
  - Hosted by INRIA, University of Rennes 1, Visiting Scientist, October 9-17, **2009**
  - Hosted by DIMNP, University of Pisa, Visiting researcher, GRNSPG, May **2010**
  - Hosted by DIMNP, University of Pisa, Visiting researcher, GRNSPG, June-July **2011**
  - Hosted by DIMNP, University of Pisa, Visiting researcher, GRNSPG, June and August **2012**
  - Hosted by University of Rennes 1, Visiting Scientist, September **2012**
  - Hosted by DIMNP, University of Pisa, Visiting researcher, GRNSPG, February-March **2013**
  - Hosted by Organizing Committee NURETH-15 and GRNSPG, Pisa, May 9-23, **2013**
  - Hosted by DICl, University of Pisa, Visiting researcher, GRNSPG, July **2015**

## Publications (in English, unless explicitly stated, see also Other at end of section)

### Archive Journals, Conferences (peer-reviewed), Book Chapters and Seminar Proceedings

1. 2022, Storti, M.A. and Ferreri, J.C., “Numerical Methods in Nuclear Thermal-Hydraulics, Chapter 20”, in: “Thermal-Hydraulics in Nuclear Power Reactors”, F.S. D’Auria and Y. Hassan, Eds., Elsevier, to be published, 2022
2. 2019, Salerno, M.U. and Ferreri, J.C., “Social Condemnation and Judicial Condemnation: social media, values, and eventual vindication” (in Spanish), VIII Inter-Academies Meeting, Buenos Aires, Argentina, November 7, on: “Redes sociales: educación y valores”, M.A. Solanet and M.L. Martí, Eds., Ciudad Autónoma de Buenos Aires, Academia Nacional de Ciencias Morales y Políticas, p. 40, 2019.
3. 2016a. A.I. Lazarte and J.C. Ferreri, J.C., Analytical and Computational Analysis of Flow Splitting in Multiple, Parallel Channels Systems (*expanded, updated and revised Archival Journal version of 2014b*), World Journal of Nuclear Science and Technology, 6, 170-190, 2016
4. 2014a, Calculation of pressure drop in a preliminary design of nuclear fuel spacer grids in an integral PWR using CFD methods, J.D. Jiménez Díaz, A.I. Lazarte and J.C. Ferreri, Mecánica Computacional Vol XXXIII, pp. 2845-2855, G. Bertolino, M. Cantero, M. Storti and Federico Teruel (Eds.), San Carlos de Bariloche, 23-26 September 2014
5. 2014b, An extended analysis for flow splitting in multiple, parallel-boiling channels systems, A.I. Lazarte and J.C. Ferreri, Mecánica Computacional Vol XXXIII, pp. 407-428, G. Bertolino, M. Cantero, M. Storti and Federico Teruel (Eds.), San Carlos de Bariloche, 23-26 September 2014
6. 2014c, A Verification Problem for Thermal-Hydraulics Systems Codes dealing with Twin, Parallel-Boiling and Inverted U-Tubes Condensing Channels (*expanded, updated and revised Archival Journal version of 2013a*), A.I. Lazarte and J.C. Ferreri, Annals of Nuclear Energy, **68**, pp. 163-171, 2014
7. 2013a, A Verification Problem for Thermal-Hydraulics Systems Codes Dealing with Twin-Parallel-Boiling Channels, A.I. Lazarte and J.C. Ferreri, ENIEF-2013, Mecánica Computacional Vol XXXII, C.G. García Garino, A.E. Mirasso, M.A. Storti and M.E. Tornello (Eds.), pp. 1799-1811, Mendoza, Argentina, November 19-22, 2013
8. 2013b, Flow Splitting and Oscillations in Parallel Channels Simulated with System Codes, A.I. Lazarte and J.C. Ferreri, paper NURETH-355, 15th International Topical Meeting on Nuclear Reactor Thermal hydraulics, Pisa, Italy, May 12-15, 2013
9. 2012, Natural Circulation Characterization of the CNA-II PHWR based on Flow Maps using RELAP5, A.I. Lazarte and J.C. Ferreri, 9th International Topical Meeting on Nuclear Thermal-Hydraulics, Operation and Safety (NUTHOS-9), Paper N9P0037, Kaohsiung, Taiwan, September 9-13, 2012
10. 2012, Processes of formation and alteration of archaeological fire structures: complexity viewed in the light of experimental approaches, R.J. March, A. Lucquin, D. Joly, J.C. Ferreri and M. Muhieddine, reviewed and updated archival version of 2008c, Journal of Archaeological Method and Theory, (DOI) 10.1007/s10816-012-9134-7, 2012
11. 2011a, Letter to the Editor on “Critical review of conservation equations for two-phase flow in the US-NRC TRACE code” by W. Wulff, J.C. Ferreri, Nuclear Eng. and Design, **241**, pp. 4275-4276, 2011
12. 2010b, Computation of unstable flows using systems codes, J.C. Ferreri, Proceedings of FLUIDOS 2010, Colonia del Sacramento, Uruguay, XI Reunión Sobre Recientes Avances en Física de Fluidos y sus Aplicaciones, November 2-5, 2010, Italo Bove et al. (Eds.) 2011 J. Phys.: Conf. Ser., **296**, 011001 doi: 10.1088/1742-6596/296/1/011001, 2010

13. 2010b, Foreword, “Nuclear Activities in Argentina - 2010”, J.C. Ferreri (Lead Guest Editor), A. Clausse, J.P. Ordoñez and O. Mazzantini, Science and Technology of Nuclear Installations Special Issue, Vol. **2011**, Article ID 207625, 2 pages, doi:10.1155/2011/207625, 2011
14. 2010c, Engineering Judgment and Natural Circulation Calculations, (partially based on 2007d), J.C. Ferreri, “Nuclear Activities in Argentina - 2010”, Special Issue, Science and Technology of Nuclear Installations, **Vol. 2011**, Article ID 694583, 11 pages, doi:10.1155/2011/694583, 2011
15. 2009, Models as Transdisciplinary Links (in Spanish), J.C. Ferreri, Fellow Member Nomination Acceptance Conference, Anales de la Academia Nacional de Ciencias de Buenos Aires, **XLIII**, Part I, pp. 47-65, 2009, ISBN: 978-987-537-107-1
16. 2008a, Use of Natural Circulation Maps-Updated, F.D. D’Auria, D. Araneo, M. Cherubini, J.C. Ferreri and O. Mazzantini, Annex 6, in **Insights into Natural Circulation: Phenomena, Models and Issues**, A. Bousbia Salah, F. D’Auria and Hamidouche, T. (Eds.), University of Pisa, GRNSPG, 2008, Published: LAP LAMBERT Academic Publishing (December 13, 2010), ISBN-10: 3843380163 - ISBN-13: 978-3843380164
17. 2008b, CFD Methods in Natural Circulation: Some Historical Aspects, Background and Numerics, J.C. Ferreri and W. Ambrosini, Annex 8, in **Insights into Natural Circulation: Phenomena, Models and Issues**, A. Bousbia Salah and D. Melideo (Eds.), University of Pisa, GRNSPG, 2008, Published: LAP LAMBERT Academic Publishing (December 13, 2010), ISBN-10: 3843380163 - ISBN-13: 978-3843380164
18. 2008c, Processus de Formation et Transformation de Structures de Combustion Archéologiques: regards expérimentaux sur la complexité (in French), R.J. March, A. Lucquin, D. Joly, J.C. Ferreri, G. Dumarçay and M. Muhieddine, Review paper, in Taphonomy of Organic Residues and Combustion Structures in Archaeological Context, Colloque-Table Ronde, Valbonne, Cépam, (UMR 6130), France, 27-29 May 2008.
19. 2007a, Natural Circulation in the ATUCHA-I PHWR Nuclear Power Plant, O. Mazzantini, J.C. Ferreri, F. D’Auria and C.P. Camusso, Science and Technology of Nuclear Installations, 2007, Open Access, Article ID 41641, 9 pages, DOI: 10.1155/2007/41641
20. 2007b, Analysis of the unstable behavior of a single-phase natural circulation loop with one-dimensional and computational fluid-dynamic models, D.S. Pilkhwal, W. Ambrosini, N. Forgiione, P.K. Vijayan, D. Saha and J.C. Ferreri, *Annals of Nuclear Energy*, **34**, pp. 339-355
21. 2007c, Radiation and Regulation (of ionizing radiation of nuclear origin), Research and Development Institute, Academia Nacional de Ciencias de Buenos Aires, **99**, December 5, 2007, ISBN: 978-987-537-093-7
22. 2007d, Engineering Judgment and Natural Circulation Calculations, J.C. Ferreri, Academia Nacional de Ciencias de Buenos Aires, Instituto de Investigación y Desarrollo, **74**, pp. 7-20, ISBN-13:978-987-537-063-0
23. 2006a, W. Ambrosini and J.C. Ferreri, Analysis of basic phenomena in boiling channel instabilities with different flow models and numerical schemes, ICONE 14-89863, Proceedings of ICONE 14, 14th International Conference on Nuclear Engineering, July 17-20, 2006, Miami, Florida USA
24. 2006b, The ubiquity of Ludwig Prandtl, **IC**, Research and Development Institute, National Academia Nacional de Ciencias de Buenos Aires (ANCBA), October 26, **2006, published 2008** (in Spanish), by ANCBA, as “Boundary Layer 100 years after Ludwig Prandtl”, **92**, pp. 11-27, ISBN-13: 978-987-537-079-1,
25. 2005a, RELAP5 simulation of a natural circulation test in the PSB-VVER test facility, M. Cherubini, F. D’Auria, J.C. Ferreri and O. Mazzantini, Paper 542, Proceedings of The 11<sup>th</sup> International Topical Meeting on Nuclear Reactor Thermal Hydraulics (NURETH-11), Avignon, France, October 2-6
26. 2004a, The effect of wall friction in single-phase natural circulation stability at the transition between laminar and turbulent flow, W. Ambrosini, N. Forgiione, J.C. Ferreri and M. Bucci, *Annals of Nuclear Energy*, **31**, pp. 1833-1865, 2004
27. 2003a, Natural Circulation in the CNA-I PHWR NPP: Characterization Based On Flow Maps, J.C. Ferreri, O. Mazzantini, M.A. Ventura, R.D. Rosso and F. D’Auria, Proceedings of The 10<sup>th</sup> International Topical Meeting on Nuclear Reactor Thermal Hydraulics (NURETH-10), Seoul, Korea, October 5-9, 2003, ISBN 89-88852-11-7

28. 2003b, *Foreword to Special Issue*, J.C. Ferreri and F. D'Auria (Guest Editors), *Int. J. Heat and Technology*, **21**, p. 1, 2003
29. 2003c, *Sensitivity Analyses on Natural Convection in an 8:1 Tall Enclosure using Finite-Volume Methods*, W. Ambrosini, J.C. Ferreri and N. Forgione, *Int. J. Heat and Technology*, **21**, pp. 51-58
30. 2003d, *Prediction of Stability of One-dimensional Natural Circulation with a Low Diffusion Numerical Scheme*, W. Ambrosini and J.C. Ferreri, *Annals of Nuclear Energy*, **30**, pp.1505-1537.
31. 2002a, *On the Analysis of Thermal Fluid Dynamic Instabilities via Numerical Discretization of Conservation Equations*, J.C. Ferreri and W. Ambrosini, condensed version of 1999b and 1999c, *Nuclear Eng. and Design*, **215**, pp. 153-170.
32. 2002b, *Development of a Calculation Methodology for Potential Flow Over Irregular Topographies*, A. Del Carmen, J.C. Ferreri and L.I. Boutet, (in Spanish), *Revista Internacional de Métodos Numéricos en Ingeniería*, **18**, pp. 199-207.
33. 2001a, *Sensitivity Analyses on the Prediction of Single-Phase Natural Circulation Stability*, A. Pennati, W. Ambrosini, F. D'Auria and J.C. Ferreri, ANS/HPS Student Conference, Nuclear Engineering -Texas A&M University, March 29-31, 2001, College Station Texas, USA.
34. 2001b, *Numerical effects in the Prediction of Single-Phase Natural Circulation Stability*, W. Ambrosini, F. D'Auria, A. Pennati and J.C. Ferreri, Proc. of 19<sup>th</sup> UIT 2001 National Heat Transfer Conference, P. Tartarini (Editor), Modena, Italy, June 25-27, 2001, pp. 313-318.
35. 2001c, *Finite-Volume Analysis of Natural Convection in a 8:1 Tall Enclosure*, W. Ambrosini, J.C. Ferreri and N. Forgione, in *Proceedings of First M.I.T. Conference on Computational Solid and Fluid Mechanics*, K.J. Bathe (Editor), Cambridge, Mass, U.S.A., June 12-15, pp. 1446-1450, 2001
36. 2001d, *Proceedings of Fluidos-2001 - VII International Seminar on Fluid Mechanics, Physics of Fluids and Associated Complex Systems*, J.C. Ferreri, G. Gnani, A. Menéndez and M. Rosen (Editors), Bs. Aires, Argentina, October 17-19, 2001, ISBN 987-20148-0-9
37. 2001e, *Calculation of Sensitivity to Parameters in Single-Phase Natural Circulation Using ADIFOR*, J.C. Ferreri and W. Ambrosini, *Int. J. Computational Fluid Dynamics*, **16**, No. 4, pp. 277-281, 2001.
38. 2001f, *Thermal hydraulic Calculation during a Postulated Over-cooling Accident originating in a Cold-Leg Break in the Atucha I Nuclear Power Station*, M. Ventura, R. Rosso and J.C. Ferreri (In Spanish), *Annals of the IRPA V Regional Congress on Radiation Protection and Safety*, Recife, Brazil, April 2001.
39. 2000a, *Linear and Non-Linear Analysis of Density Wave Instability Phenomena*, W. Ambrosini, P. Di Marco and J.C. Ferreri, *Int. J. Heat and Technology*, **18**, No. 1, pp.27-36 (modified, definitive version of 1998 b).
40. 2000b, *Stability analysis of single-phase thermosyphon loops by finite-difference numerical methods*, W. Ambrosini and J.C. Ferreri, (Selected from: *Proceedings of Post SMIRT 14 Seminar 18 on Passive Safety Features in Nuclear Installations*, Pisa, August 25-27<sup>th</sup> 1997, pp. E2.1-E2.10), *Nuclear Eng. and Design*, **201**, pp. 11-23.
41. 2000c, *Simulation of the Thermal Behavior of UF<sub>6</sub> Packages in Fires*, J.C. Ferreri, A. Clausse and F. Basombrío, *Int. Journal for Radioactive Materials Transport*, 11, No. 4, pp. 279-294.
42. 1999a, *Verification of RELAP5/MOD3 with theoretical and numerical stability results on single-phase, natural circulation in a simple loop*, J.C. Ferreri and W. Ambrosini, United States Nuclear Regulatory Commission, NUREG IA/151.
43. 1999b, *Parameter Sensitivity in Single-Phase Natural Circulation via Automatic Differentiation of FORTRAN Codes*, J.C. Ferreri and W. Ambrosini, *Procs. of Eurotherm Seminar No. 63*, Genoa, Italy, 6-8 September, M. Misale and F. Mayinger (Eds.), pp. 397-405
44. 1999c, *Single-phase natural circulation in simple circuits -reflections on its numerical simulation - Invited lecture*, J.C. Ferreri, *Procs. Eurotherm Seminar No. 63*, Genoa, Italy, 6-8 Sept., M. Misale and F. Mayinger (Eds.), pp. 17-30
45. 1998a, *The effect of Truncation Error on Numerical Predictions of Stability in a Natural Circulation Single-Phase Loop*, W. Ambrosini and J.C. Ferreri, *Nuclear Eng. and Design*, **183**, pp. 53-76
46. 1998b, *Analysis of Density Wave Instability phenomena by means of Non-linear Analytical Tools*, W. Ambrosini, P. Di Marco and J.C. Ferreri, *ATTI XVI UIT National Heat Transfer Conference*, C. Bartoli (Ed.), Siena, Italy, June 18<sup>th</sup>-19<sup>th</sup>, pp. 597-610

47. 1997a, Solution of Non-linear Diffusion Problems Using Moving Grids, A. Del Carmen and J.C. Ferreri, Proceedings of 11th Meeting on Reactor Physics and Thermal Hydraulics, Pocos de Caldas, M.G., Brazil, August 18-22th 1997, pp. 207-212.
48. 1997b, Numerical analysis of single-phase, natural circulation in a simple closed loop, W. Ambrosini and J.C. Ferreri, Proceedings of 11th Meeting on Reactor Physics and Thermal Hydraulics, Pocos de Caldas, M.G., Brazil, August 18-22th 1997, pp. 676-681
49. 1996a, Using Numerical Models to Analyze Archaeological, Simple Fire Structures (invited conference), J.C. Ferreri and R. March, Annals of Colloquium IX on "The Study of Human Behavior in Relation to Fire in Archaeology: New data and Methodologies for Understanding Prehistoric Fire Structures", Annals of XIII U.I.S.P.P. Congress, The lower and middle Palaeolithic, O. Bar-Yosef et al. (Eds), Sept. 8-14 1996, Forli, Italy, pp. 57-63
50. 1995a, On the Convergence of RELAP5 Calculations in a Single-Phase, Natural Circulation Test Problem, J.C. Ferreri, W. Ambrosini and F. D'Auria, Proceedings of X-ENFIR, 7-11th August 1995, Aguas de Lindoia, S.P., Brazil, pp. 303-307.
51. 1995b, Computation of Flow in Porous Media in the Presence of Concentrated Heat Sources and Isolated Fractures, J.C. Ferreri, G.M. Grandi and M.A. Ventura, Proceedings of SMIRT 13 Post Conference Seminar 10, on Waste Repository Technology & Management, August 21-23, Iguazú, Argentina, pp. 117-125
52. 1995c, Numerical solution of viscous, waiting, gravity-driven flows, A. Del Carmen and J.C. Ferreri, Annals of Física de Fluidos 95, IV Simposio Internacional en Recientes Avances en Mecánica y Física de Fluidos, La Plata, Argentina, Dec. 11-13, pp. 113-128.
53. 1994, Transport of Radionuclides in Isolated Fractures in Crystalline Rocks, G.M. Grandi and J.C. Ferreri, Int. J. Numerical Methods in Fluids, **18**, pp. 1107-1119.
54. 1993a, Estimation of Parameters in Compartmental Models of Internal Contamination, A.J. Cabello and J.C. Ferreri, Radiation Protection Dosimetry, **49**, pp. 413-420.
55. 1993b, Etudes des Foyers Préhistoriques des Gisements Magdaleniens du Bassin Parisien: L'approche Experimentale, R.J. March, J.C. Ferreri and C. Guez, Actes du Journées Archéologie d'Ile-de-France, Paleo-Environnement et Actualités, Meaux, 16-17 mars 1991, pp. 87-96.
56. 1993c, Computational models for the Simulation of the Behavior of UF6 Packages in Fires. J.C. Ferreri and A. Clause, IAEA Research Co-ordination Meeting on The Assessment of Safety of UF6 Transport Packages in Fires, October 18-22, Oak Ridge, Tennessee, USA.
57. 1991a, A Computational Method for the Hydrodynamics of fractured Porous Media, G.M. Grandi and J.C. Ferreri, Int. J. Num. Methods in Fluids, **12**, pp. 261-285.
58. 1991b, Application of Numerical Models for the Inference of Fire duration in Archaeological Fire Structures – Parametric Studies (in Spanish), R.J. March and J.C. Ferreri, Actas XI Congreso Nacional de Arqueología Chilena, Santiago de Chile, October 11-15, 1988, pp. 157-168.
59. 1991c, L'Etude des Structures de Combustion Archéologiques en Argentine, R.J. March, A. Baldessari, J.C. Ferreri, A. Grande, E.G. Gros, O. Morello and R. Rodano, Bulletin de la Société Préhistorique Française, Etudes et Travaux, **86**, tome 10-12, pp. 384-392.
60. 1991d, On the Influence of Parameter Uncertainties in the Evaluation of Radiological and Nuclear Safety Related Topics, J.C. Ferreri and G.M. Grandi, Proceedings of IAEA Technical Committee/Workshop on "Computer-Aided Safety Analysis", Moscow, U.S.S.R., IAEA TC-560.4.
61. 1990a, Demands on Expert Systems from the Regulatory point of view: Applicability Constraints. G.M. Grandi, J.C. Ferreri and J.J. Kunst, Proceedings of IAEA Technical Committee Meeting on "Use of Expert Systems in Nuclear Safety", Vienna, Austria, October 1988, IAEA TECDOC-542, pp. 101-109.
62. 1990b, Finite-volume Method for the Solution of the Motion Equations for an Incompressible Fluid (in Spanish), M.A. Forcinito and J.C. Ferreri, Proceedings of XIV Latin American Congress of Hydraulics, Montevideo, Uruguay, Nov. 6-10, 1990, pp. 13-24.
63. 1989a, On the Study of Archaeological Hearths by Means of Replication Experiments and Numerical Models (In Spanish). R.J. March and J.C. Ferreri, Proc. of Nature et Fonction des Foyers Préhistoriques, Actes du Colloque de Nemours, Memoires du Musee de Prehistoire d'Ile de France, 2, pp. 59-68.

64. 1989b, Experience in the use of Computational Models in Radiological Safety (In Spanish), J.C. Ferreri, G.M. Grandi, M.A. Ventura and A.S. Doval, VII ENFIR, Recife, Brasil, April 1989, RBE. Revista Brasileira de Engenharia, Caderno de Engenharia Nuclear, 2 (2), pp. 5-53
65. 1989c, On the solution of Heat Conduction Problems Involving Heat Sources via Boundary-Fitted Grids, G.M. Grandi and J.C. Ferreri, Communications in Applied Num. Methods, 5, pp. 1-6.
66. 1989d, On Expert System Assisted, Finite-Difference Schemes Selection in Computational Fluid Dynamics, J.C. Ferreri and G.M. Grandi, Proc. of Sixth Int. Conf. on Numerical Methods in Laminar & Turbulent Flows, C. Taylor, P.M. Gresho, J. Thompson, R.L. Sani and J. Hauser (Eds.), Swansea, July 1989, Pineridge Press, 2, pp. 1663-1673.
67. 1989e, Two-dimensional, Adaptive-Grid, Finite-Difference Method for Conservation Equations. G.M. Grandi and J.C. Ferreri, Proceedings of Sixth Int. Conf. on Numerical Methods in Laminar & Turbulent Flows, C. Taylor, P.M. Gresho, J. Thompson, R. L. Sani and J. Hauser (Eds.), Swansea, July 1989, Pineridge Press, 2, pp. 1942-1950.
68. 1988a, A comparison of Post-Test Calculations using TRAC PF1 with the PMK-NVH Experimental Results, A.S. Doval and J.C. Ferreri, Proc. of Technical Committee/Workshop on Computer-Aided Safety Analysis, IAEA, Poland, IAEA-TC-560.02, pp. 72-78.
69. 1988b, Boundary-Fitted Finite-Difference Calculation of Fluid Flow and Scalar Transport in Fractured-Porous Media. G.M. Grandi and J.C. Ferreri, Proceedings of Int. Conference in Computational Methods in Flow Analysis, H. Niki and M. Kawahara (Eds.), Okayama Univ., Japan, 1, pp. 611-618.
70. 1987, A comparison of Pre -Test Calculations Using RETRAN and TRAC PF1 with the PMK-NVH Experimental Results, A.S. Doval and J.C. Ferreri, Proceedings of IAEA Technical Meeting on Simulation of a LOCA, IAEA TECDOC 425.
71. 1986, Diffusion of Heat from a Finite, Rectangular, Plane Heat Source, J.C. Ferreri and C.H. Caballero, Lat. Amer. J. of Heat and Mass Transfer, 10, pp. 75-81.
72. 1985a, Numerical Aspects of the Study of the Regional Thermal Impact of a Radioactive Waste Repository, J.C. Ferreri and M.A. Ventura, Nuclear Eng. and Design, 86, pp. 253-265.
73. 1985b, A Note on the Steady-State Advection-Diffusion Equation, J.C. Ferreri, Int. J. Numerical Methods in Fluids, 5, pp. 593-596
74. 1985c, Experience in the Implementation, Use and Development of Thermal-hydraulic Codes for Safety Analysis, J.C. Ferreri and A.S. Doval, Proceedings of Technical Committee and Workshop, IAEA, Portoroz, Yugoslavia, 1985, IAEA-TC-560, pp. 34-39.
75. 1985d, Models for the Study of Local Effects produced by a High-Level Waste Repository, J.C. Ferreri and G.M. Grandi, Proceedings IV Int. Conf. on Numerical Methods in Laminar and Turbulent Flows, C. Taylor, M.D. Olson, P.M. Gresho and W.G. Habashi (Eds.), Pineridge Press, 2, 1256-1267.
76. 1985e, A New (?) Alternative for Decision-Making Concerning the Cost / Accuracy Controversy, J.C. Ferreri, Invited Conference, MECOM85, Mecánica Computacional, AMCA, S. Idelsohn (Ed.), Santa Fe, Argentina, 3, pp. 129-139.
77. 1985f, FRACTURE-BFC: A Code for the Numerical Prediction of Hydro-dynamics in Fractured-Porous Media, G.M. Grandi and J.C. Ferreri, MECOM/85, Mecánica Computacional, AMCA, S. Idelsohn (Ed.), Santa Fe, Argentina, 3, pp. 301-323.
78. 1984a, On the Accuracy of Boundary-Fitted Finite-Difference Calculations, J.C. Ferreri and M.A. Ventura, Int. J. Numerical Methods in Fluids, 4, 359-375.
79. 1984b, On the Effects of Discretization in the Computation of Natural Circulation in Loops (In Spanish), J.C. Ferreri and A.S. Doval, Seminars of the Argentine Committee Heat and Mass Transfer, 24, pp. 181-212.
80. 1984c, Conceptual Frame for the Development of the Models for the Prediction of the Local Effects of a High-Level Radioactive Waste Repository (In Spanish), E. Palacios and J.C. Ferreri, Proceedings of III Latin American Meeting, Argentine Association for Nuclear Technology, Buenos Aires, Argentina, Nov. 1984, vol. II, pp. 478-482
81. 1984d, Numerical Aspects of the Modelling of the Local Effects of a High-Level Radioactive Waste Repository (In Spanish), J.C. Ferreri and M.A. Ventura, Proceedings of III Latin American Meeting,

- Argentine Association for Nuclear Technology, Buenos Aires, Argentina, Nov. 1984, vol. II, pp. 483-493
82. 1984e, Computational Study of an Incident of Loss of External Power in the CNA I Nuclear Power Station (In Spanish), A.S. Doval and J.C. Ferreri, Proceedings of III Latin American Meeting, Argentine Association for Nuclear Technology, Buenos Aires, Argentina, Nov. 1984, vol. II, pp. 473-477
  83. 1983, Computer-Aided Instruction - Basic Fluid Mechanics (In Spanish), J.C. Ferreri and C.H. Caballero, Seminars of the Argentine Committee Heat and Mass Transfer, **17**, 49-129.
  84. 1982a, Free Convection in a Closed Container Filled with a Liquid and a Solid, B. Martinez and J.C. Ferreri, Lat. Amer. J. of Heat and Mass Transfer, **6**, pp. 1-12
  85. 1982b, SOLA-BFC A Computer Code for Unsteady Incompressible Fluid Flow Calculations, B. Martinez and J.C. Ferreri, Proceedings of III Latin Amer. Symposium on Comp. Methods in Eng., A. Ferrante (Ed.), Buenos Aires, pp. 614-630
  86. 1982c, Comments on the accuracy of discrete schemes applied to the Prediction of Heat and Mass Transfer Processes. (In Spanish), J.C. Ferreri, Seminars of the Argentine Committee Heat and Mass Transfer, **12**, pp. 55-62.
  87. 1981, Evaluative Review: The Finite-Difference Method in Unsteady Heat Conduction Problems (In Spanish), J.C. Ferreri and M.A. Ventura, Seminars of the Argentine Committee Heat and Mass Transfer, **9**, pp. 3-61.
  88. 1980, Computation of Unsteady Heat Conduction in Solids with Variable Properties Depending on Temperature, M.A. Ventura and J.C. Ferreri, Lat. Amer. J. of Heat Mass Transfer, **4**, pp. 110-120.
  89. 1979a, On the Solution of Field Problems in Domains of Irregular Shapes via automatically fitted Finite-differences (In Spanish), J.C. Ferreri, Proceedings of 1st. Lat. Amer. Symposium on Computational Methods in Engineering, UFGRS (Ed.), Porto Alegre, Brazil, **3**, pp. 959-969
  90. 1979b, The Finite-Difference Methods in Heat Conduction Problems (In Spanish), J.C. Ferreri, Seminars of the Argentine Committee Heat and Mass Transfer, **2**, pp. 133-180

Ferreri. - 1a edición especial, “Presentación”, p. 1 y “Introducción y Análisis preliminar”, pp. 1-6, Academia Nacional de Ciencias de Buenos Aires, Ciudad Autónoma de Buenos Aires, ISBN 978-987-537-171-2.

## **R & D Reports to Contractors or Institutions (In Spanish unless explicitly stated)**

1. Flow Separation in Over-Expanded Nozzles, J.C. Ferreri, Report to the CNIE, Contract FA-24, 1968.
2. Loss of Efficiency in Propelling Nozzles due to the Effects of Viscosity, J.C. Ferreri, Report to the Argentine Air Force, Contract FA-7/68, 1968.
3. Variation of the Efficiency of Propelling Nozzles due to the Effects of Throat Mass Injection, J.C. Ferreri, Report to the Argentine Air Force, Contract FA-14/69, 1970.

4. Mass Entrainment by Turbulent Flows, J.C. Ferreri, Report to the Argentine Air Force, Contract FA-22/70, 1972.
5. Experimental Study of the Characteristics of High-Pressure Paint Spraying Nozzles, J.C. Ferreri and L. Bassani, Report to Morwin S.A., 1975.
6. Experimental Determination of the Rheological Properties of Paints, Part I, J.C. Ferreri, Report to Morwin S.A., 1975.
7. Numerical Prediction of the Circulation of Coastal Waters in the Coast of Buenos Aires, J.C. Ferreri, Report to COPUAP, Buenos Aires, Argentina, 1980
8. Numerical Prediction of Harbor Resonance to Long Waves for a Deep-Waters Port, J.C. Ferreri, Report to COPUAP, Buenos Aires, Argentina, 1980.
9. Time Evolution of a Granite Mass under Thermal Loads Originating in Fission By-products, M. Ventura and J.C. Ferreri, Report to CNEA, Argentina, CNEA-NT 23/85, pub. 1985, 1982.
10. Time Evolution of a Granite Mass under Thermal Loads Originating in Fission By-products - Sensitivity Study, M. Ventura, and J.C. Ferreri, Report to CNEA, Argentina, CNEA-NT 24/85, pub. 1985, 1982.
11. Experience in the Implementation and Use of the Programs SOLA-LOOP, TRAC P1A and TRAC-PD2, A. Doval and J.C. Ferreri, Report to GPRS, CNEA, Argentina, GPRS-NT 2, 1983.
12. Computational Study of an Incident of Loss of External Power for the CNA-I Nuclear Power Station, Detailed Report, A. Doval and J.C. Ferreri, Report to GPRS, CNEA, Argentina, 1984.
13. Thermal behavior of silos for irradiated fuel bundles containment (Project ASECQ), M. Ventura, J.C. Ferreri and G.M. Grandi, Report to GSRN, CNEA, Argentina, 1990.
14. Nuclear Safety evaluation of the thermal-hydraulic behavior in normal and postulated accidental scenarios of the Multiple Purpose Reactor (22 MWth), J.C. Ferreri, Memos to Radiological and Nuclear Safety Branch, Research Reactors and Critical Systems Group, Nat. Board of Nuclear Regulation, (Lic. R. Waldman, Project Leader), 1996.
15. Many tens of reports to Board of Directors as the Head, Scientific and Technical Support Branch, NRA, Argentina, 2004-2011.

## List of Supervised Fellowships

<b>FELLOW</b>	<b>TYPE OF FELLOWSHIP, FIELD, INSTITUTION</b>
R.D. Rosso,	Training, Fluid Dynamics, INTI
C.R.Casanova,	Graduation, Physics, Fluid Dynamics, INTI, UBA
D. Quinn,	Graduation, Physics, Fluid Dynamics, INTI, UBA
J.A. Fiora,	Graduation, Mathematics, INTI, UBA
O. Cánepa,	Graduate, Thermal-hydraulics, CNEA
A.J. Cabello,	Graduate, Parameter Estimation, CNEA
A. Gutierrez,	Graduate, Systems Analysis, CNEA
E. Marino,	Graduate, Thermal-hydraulics, CNEA
M.A. Forcinito,	Graduate, Numerical Fluid Dynamics, CIC-PBA
A. Del Carmen,	Graduate, Numerical Modelling, CIC-PBA and ARN
R.J. March,	Graduate, Numerical Modelling in Archaeology, CONICET and U. París 1, Pantheon-Sorbonne
Kamal Eldin Talha	Ph.D., Thermal-hydraulics, IAEA/Egypt

## List of supervised Ph.D. and MSc Theses

<b>CANDIDATE</b>	<b>FIELD, INSTITUTION and YEAR</b>
G.M. Grandi	PhD, Nuclear Engineering, Inst. Balseiro, UNCUIYO, 1989 (10/10)
J.D. Jiménez Díaz	MSc in Simulation and Control, FI-UBA, 2015 (10/10)
A.I. Lazarte	Ph.D., Nuclear Technology, Inst. Dan Beninson, UNSAM, 2018 (10/10)

## List of Dissertation Committees Membership for MSc and Ph.D. Theses

<b>CANDIDATE</b>	<b>FIELD, INSTITUTION and YEAR</b>
1. Dr. M. Mattea,	Ph.D. in Chem. Eng., UNS, 1984
2. Dr. L. Mancini,	Ph.D. in Physics, UBA, 1985
3. Dr. A. Clause,	Ph.D. in Nuclear Engineering, Inst. Balseiro, 1986
4. Dr. L. Venegas,	Ph.D. in Meteorological Sciences, UBA, 1986
5. Dr. G. Berri,	Ph.D. in Meteorological Sciences, UBA, 1987
6. Dr. E. Darderes,	Ph.D. in Physics, UNLP, 1988
7. Dr. F. Bonetto,	Ph.D. in Nuclear Engineering, Inst. Balseiro, 1990
8. Dr. M. Storti,	Ph.D. in Chemical Engineering, UNL, 1990
9. Dr. J. Diez,	Ph.D. in Physics – Fluid Mechanics, UNCPBA, 1990
10. Dr. J. Baliño,	Ph.D. in Nuclear Engineering, Inst. Balseiro, 1991
11. Dr. A. Larreteguy,	Ph.D. in Nuclear Engineering, Inst. Balseiro, 1992
12. Dr. G. Guido Lavalle,	Ph.D. in Nuclear Engineering, Inst. Balseiro, 1992
13. Dr. A. Denis,	Ph.D. in Physics – Materials Sciences, UBA, 1992
14. Dr. D. Delmastro,	Ph.D. in Nuclear Engineering, Inst. Balseiro, 1993
15. Dr. P. Carrica,	Ph.D. in Nuclear Engineering, Inst. Balseiro, 1993
16. MSc. G. San Martín,	MSc in Material Sciences, Univ. San Martín-CNEA, 1995
17. Dr. L. Cardón,	Ph.D. in Physics - Natural Circulation, UNSA, 1996
18. Dr. J. D'Elia,	Ph.D. in Engineering, Computational Mechanics, UNL, 1997
19. MSc. F. Bombardelli	Msc. Eng. Computational Hydraulics, UBA, 1998
20. Dr. M. Severino	Ph.D. in Chemical Technology, Capillary flows, UNL, 2001
21. MSc. D. Campana	MSc in Chem. Technology, Comp. of capillary flows, UNL, 2001
22. Dr. A. Fraidenraich	Ph.D. in Engineering, Perturbative Methods, FI-UBA, 2004
23. Dr. P. A. Zanocco	Ph.D. in Nuclear Engineering, Inst. Balseiro, UNCuyo, 2005
24. Dr. R. Prado	Ph.D. in Engineering, FI-UBA, 2007
25. Dr. A. Otero	Ph.D. in Engineering, FI-UBA, 2008
26. Dr. L. Battaglia,	Ph.D. in Engineering, Computational Mechanics, UNL, 2009
27. Dr. P.F. Molina	Ph.D. in Physics, Thermo-luminescence, UNCPBA, 2009
28. MSc. M.A. Martínez	MSc. in Engineering, Num. Simul. and Control, FIUBA, 2009
29. Dr. M. Muhieddine	Ph.D. in Informatics, Num. Simul., Univ. Rennes, France, 2009
30. Dr. J. Marcazzó	Ph.D. in Physics, OSL and Thermo-luminescence, UNCPBA, 2010
31. MSc. Matías Rivero	MSc. in Engineering, Num. Simul. and Control, FIUBA, 2011
32. Dr. N. Muñoz Vazquez	PhD in Physics, Heat Transfer in Buildings, UNCPBA, 2018
